

Upcoming federal light bulb legislation quick reference guide

Effected Bulbs	Timing	Regulation	Primary Fixture	Example Eliminated Bulbs	Replacements Bulbs Available Now
 <p>100-Watt Medium Base (includes 95W)</p>	<p>Can no longer manufacture 1/1/2012* inventory sellable until depleted</p>	<p>New efficiency standards for all 100-Watt general service bulbs: Maximum wattage 72-Watts Lumens (brightness) 1,490-2,600** Minimum life 1,000 hours</p>			
 <p>75-Watt Medium Base (includes 71W)</p>	<p>Can no longer manufacture 1/1/2013* inventory sellable until depleted</p>	<p>New efficiency standards for all 75-Watt general service bulbs: Maximum wattage 53-Watts Lumens (brightness) 1,050-1,489** Minimum life 1,000 hours</p>			
 <p>60-Watt Medium & Intermediate Base (includes 57W)</p>	<p>Can no longer manufacture 1/1/2014* inventory sellable until depleted</p>	<p>New efficiency standards for all 60-Watt general service/deco bulbs: Maximum wattage 43-Watts Lumens (brightness) 750-1,049** Minimum life 1,000 hours</p>			
 <p>40-Watt Medium Base (includes 37W)</p>	<p>Can no longer manufacture 1/1/2014* inventory sellable until depleted</p>	<p>40-Watt general service bulbs: Maximum wattage 29-Watts Lumens (brightness) 310-749**</p>			
 <p>All PAR20 PAR30 PAR38 >39-Watt</p>	<p>Can no longer manufacture 7/14/2012 inventory sellable until depleted</p>	<p>New lumen-per-Watt standards eliminate standard halogen bulbs. The legislation doesn't affect incandescent reflectors, PAR16, MR16 & GU10.</p>			
 <p>T12 F34 F40 F96 T8 F32 F96</p>	<p>Can on longer manufacture 7/14/2012 inventory sellable until depleted</p>	<p>New lumen-per-Watt standards eliminate most F40 and F96 T12 bulbs and some F32 T8 lamps. Linear fluorescent lamps less than 4ft aren't affected.</p>			 <p>More options coming in 2012</p>

* California will enact the new standards for general service bulbs 1 year earlier
 ** Lumen range is 25% lower for color-enhanced products like GE Reveal® light bulbs
