

Portland Cement (DIB #264207) Uses

QUIKRETE® Portland Cement (No. 1124) complies with current ASTM C150 and Federal Specifications for portland cement. Can be mixed with aggregate and other ingredients to make concrete mix, mortar mix, and base coat stucco. Type I

Available in:
47lb. bags

To make Concrete Mix:

- 3 parts All-Purpose Gravel (No. 1151)
- 2 parts All-Purpose Sand (No. 1152)
- 1 part Portland Cement (by volume)

To make Type S Mortar Mix:

- 3 1/2 to 4 1/2 parts Mason Sand (No. 1952)
- 1/2 part Hydrated Lime
- 1 part Portland Cement (by volume)

Stucco

A finish composed of two or more layers of mortar (white or colored) that is applied to either indoor or outdoor walls.

Type S is sometimes specified for masonry at or below grade, but offers another quality. S has high compressive strength (1800 psi) but adds high tensile bond strength.
